HERAEUS

How Silver Ions Work

They inhibit the reproduction of the microbe by:

- Hote microbiologice
- Incubatoare microbiologice sau cu CO₂ (cu ioni de argint iONGUARD)
- Etuve uscare, vid, sterilizare, explosion-proof, corrosion protected
- Cuptoare

HERAEUS – cont.

- Centrifuge
- Spalator automat celule sanguine
- Incubatoare cu CO2 si cu ciclu de decontaminare

ThermoFisher
SCIENTIFIC

The world leader in serving science

FINNPIPETTE

ThermoFisher
SCIENTIFIC
The world leader in serving science

- Statii automate pentru pipetare
- Pipete automate, electronice
- Varfuri cu / fara filtru
- Varfuri ClipTip cu sistem special de prindere
- Dispensere

PCR workflow

Single and multichannel pipettes, electronic pipettes

Liquid Handling

Liquid Handling

Liquid Handling

Liquid Handling

Multidrop reagent dispensers

Sample Preparation

DNA/RNA extraction

DNA/RNA analysis

PCR/qPCR

Data analysis

Vast family of products for sample storage

KingFisher products: DNA/RNA purification + KingFisher reagent kits

NanoDrop series of small volume UV-Vis spectrophotometers

Piko thermal cycler + UTW plastics+ end-

PikoReal Real-Time PCR system + plastics + qPCR reagents

Vast family of centrifuges

Direct PCR kits

Multiskan GO UV-Vis cuvette- and plate spectrophotometers

Arktik thermal cycler + plastics + end-point PCR reagents

Owl gel electrophoresis systems

FORMA

- Congelatoare verticale si orizontale -86C
- Congelatoare programabile cu LN2
- Statii de lucru anaerobe  Blue Heart
- Camere climatice  Yellow Heart
- Solutii pentru crioconservare  Red Heart
- Incubatoare cu CO2 si decontaminare
- Congelatoare plasma, enzime, cu LN2
- Frigidere sange, cromatografie, uz farmaceutic

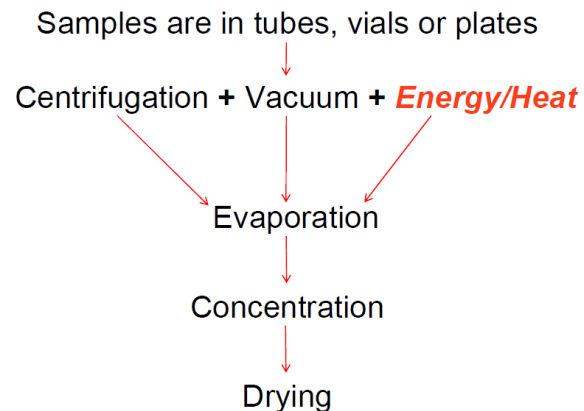

SAVANT

ThermoFisher
SCIENTIFIC

The world leader in serving science

- *Concentratoare vacuum* (ideale pentru solvenți organici agresivi precum DMSO sau acizi – HCl)

SORVALL

- Ultracentrifuge de podea si de masa (pana la 1,048,000 x g)
- Centrifuge de mare viteza (pana la 100,000 x g)
- Rotoare din fibra de carbon (garantie 15 ani)

TKA

ThermoFisher
SCIENTIFIC

The world leader in serving science

Sisteme pentru purificarea apei, pentru laborator

Type 1 water

Type 2 water

RO water

Barnstead

- Stocatoare LN2
- Blocuri de incalzire
- Bai de apa
- Agitatoare de masa/de podea cu/fara incubare, magnetice
- Placi calde, mixere

ThermoFisher
SCIENTIFIC

The world leader in serving science

OWL

ThermoFisher
SCIENTIFIC

The world leader in serving science

- Systeme horizontale / verticale de electroforeza

NUNC

ThermoFisher

| Cylinders | Pipet Jars | Wash Bottles |

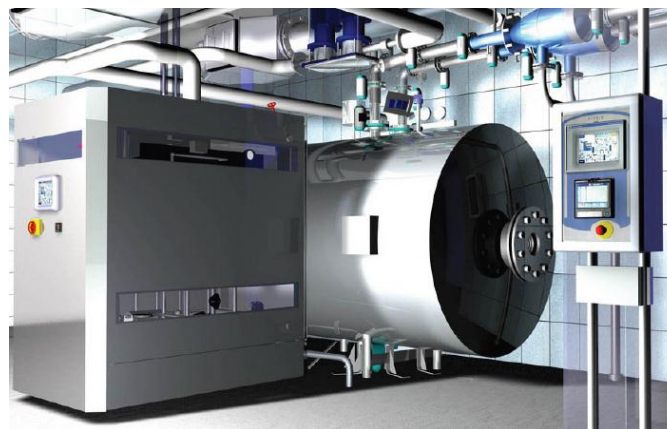

CIRO FIOCCHETTI

- Banci de sange +4°C si congelatoare -40°C pentru pastrarea produselor sanguine (certificate ca Dispozitive medicale)
- Frigidere pentru depozitarea medicamentelor
- Congelatoare (gama: -20°C / -86°C)
- Frigidere / congelatoare mortuare
- Aparate pentru fabricarea ghetii (cuburi sau fulgi)
- Frigidere mobile pentru transportul produselor biologice
- Camere frigorifice

STERIS – Life Science

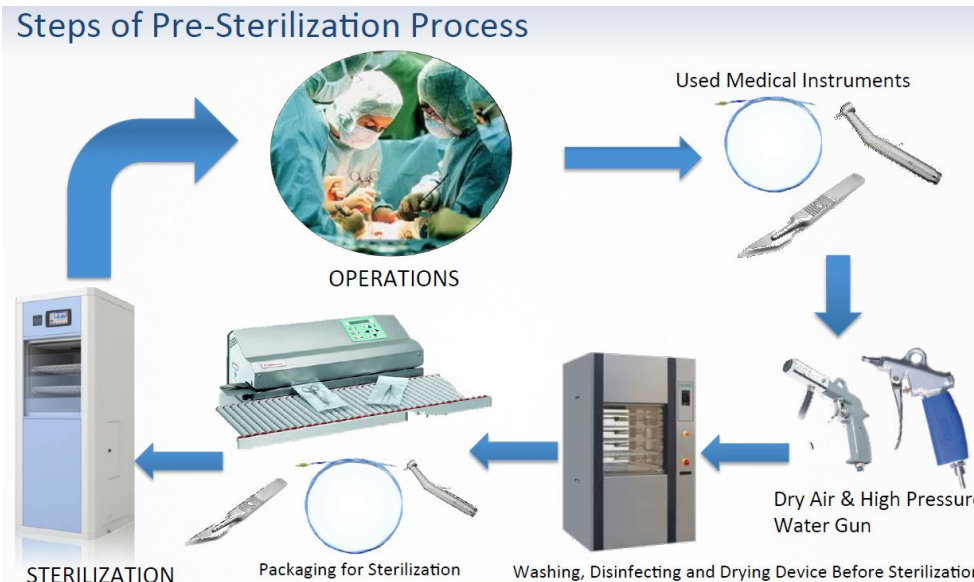

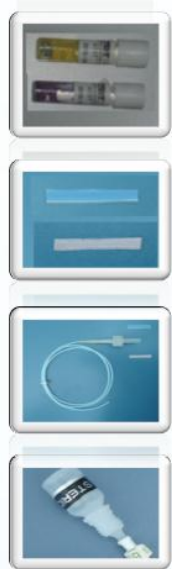

- Autoclave GMP si Spalatoare GMP pentru sticlaria si componentele folosite in industria farmaceutica
- Echipamente pentru decontaminarea cu H₂O₂ a camerelor, obiectelor, etc.
- Instalatii pentru producerea apei pure / aburului pur si a apei pentru injectii
- Sisteme pentru decontaminarea continua a efluentilor

STERICOOOL

STERICOOOL™

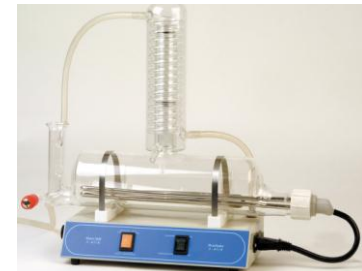

- Sisteme avansate de sterilizare cu peroxid de hidrogen (fiecare proces de sterilizare este validat pentru 10⁻⁶ SAL)
- **Certificare:** EN ISO 13485:2003, EN ISO 9001:2008, CE (EMC EN 60601-1-2:2007, EMC EN 60601-1-2:2007-03, si certifi care LVD IEC 61010-1:2010), ISO 14937, ISO/IEN 117025 acreditat de un Laborator European de terta parte
- **Validare:** ISO/IEN 117025 acreditat de un Laborator European de terta parte

Raypa

- Autoclave
- Digestoare & distilatoare
- Agitatoare, viscozimetre
- Bai de apa
- Placi calde

Barkey

- Echipament pentru dezghetarea plasmelor și încălzirea produselor sanguine
- Sisteme pentru încălzirea seringilor, a instrumentarului, hainelor, etc.
- Echipament pentru încălzirea sangelui / soluțiilor perfuzabile în momentul administrării pacientului
- Sisteme pentru încălzirea pacientului înainte, în timpul și după operații

Origen

OriGen
BIOMEDICAL

- CryoStore - pungi din EVA pentru crioconservare celule stem (25 ml – 2000 ml)
- CryoBagE - pungi din Kapton/ FEP Teflon pentru crioconservare tesuturi
- Pungi Over-Wrap din EVO
- PermaLife - Pungi pentru culturi celulare (12 ml – 1000 ml)
- CryoPur DMSO 100% si 55% + Dextran 5%
- Seturi de transfer

- Echipamente pentru agitarea pungilor cu sange si pentru sudarea tubulaturilor

DELTA T

delta T

- Sisteme portabile pentru transportul produselor sanguine labile (eritrocite, trombocite, plasma, celule stem) si a altor probe biologice
- Echipamente pentru monitorizarea temperaturii in timpul transportului

Deep Frozen

Room Temp.

Cold Chain

Medications

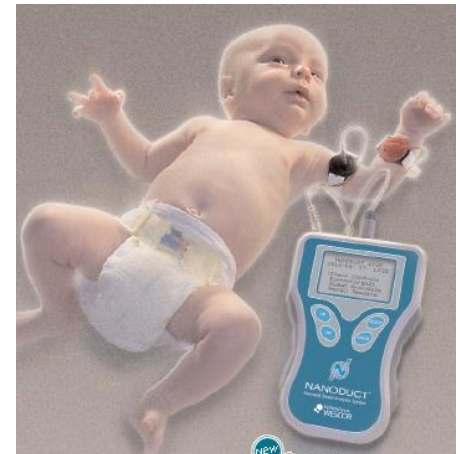

BioHazardous

Blood

WESCOR, Elitech Group

- Echipamente pentru diagnosticarea fibrozei chistice (Nanoduct & Macroduct)
- Vapro-osmometre pentru utilizare atat in domeniul clinic cat si in cercetare
- Citocentrifuge
- Coloratoare automate de lame

Pari

- Aparate aerosoli pentru caile aeriene superioare / inferioare
- Nebulizatoare
- Peak flow meters
- Inhalatoare Vortex
- Pari Provocation Test
- Dus nazal
- Flutter

Geratherm

- Spirometre
- Body-pletismometre
- CPET
- Consumabile

Diapath

- Instrumente pentru autopsiere
- Procesatoare automate de tesuturi
- Hote, mese de disectie si dulapuri ventilate
- Statii de includere in parafina
- Microtoame automate
- Solutii complete pentru coloratii histologice si citologice
- Reactivi si consumabile

VENTILATED HOODS

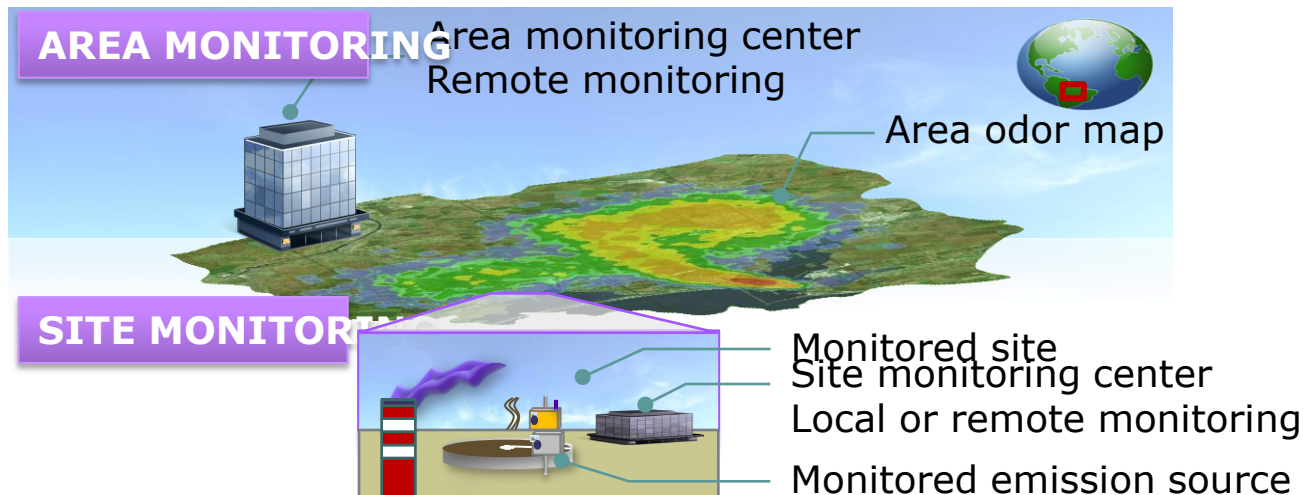

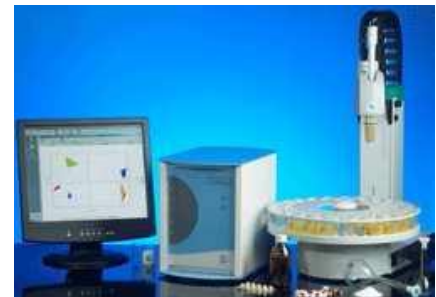

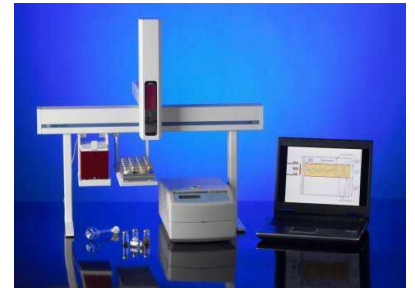

Alpha Mos

Instrumente pentru analize senzoriale:

- Nas electronic
- Limba electronica
- Ochi electronic
- Sisteme pentru monitorizarea continua a mirosurilor si compusilor chimici din aer

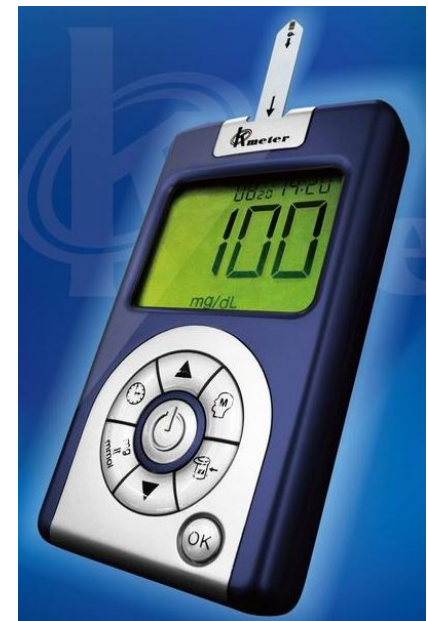

OK BIOTECH

○ Glucometre

- Domeniul de masurare: 20-600 mg/dL. (1.1-33.3 mmol/L)
- Timp de efectuare a testarii: 6 secunde.
- Cantitatea de sange necesara unei probe pentru tesare: 0.7 ul.
- Memorie: 250 testari cu memorarea valorii glicemiei, datei si orei
- Functie de stergere a memoriei si functie de efectuarea glicemiei medii la 7, 15 si 30 zile
- Calibrare cu ajutorul solutiei de control - standardul de glucoza YSI 2747
- Indicator al valorilor de risc
- Iesire RS-232

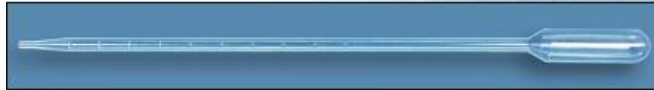

GOSSELIN

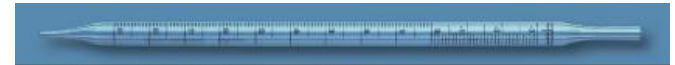

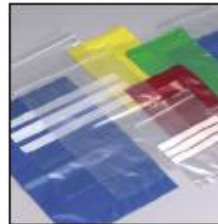

○ Consumabile din plastic pentru laboratoare

1 ml - L 190 mm - Transfer pipette / Pipetta de transfer

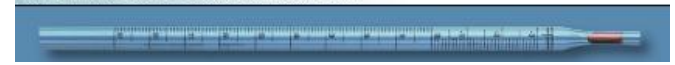

1 ml - L 225 mm - Transfer pipette / Pipetta de transfer

Narrow end without hydrophobe plug / Embout fin sans tampon hydrophobe

Wide end with hydrophobe plug / Embout large avec tampon hydrophobe

Octagonal bottles - Narrow neck
Flacoză octogonă - Botețe cu gât îngust

HECHT

- Accesorii si consumabile din plastic / sticla pentru laboratoare

Teste rapide

○ Teste rapide

| | | |
|-----------------------------------|---------------------------|-------------------------|
| HBsAG | Strep A | FOB |
| Anti-HBs | H Pylori | Troponin I |
| HBeAG | Malaria Antibody | Myoglobin |
| Anti-HBe | Chlamydia | Teste droguri |
| Anti-HBe | Gonorrhoea Antigen | Teste urina |
| Anti-HBc | Anti-Syphilis | Teste alcoolemie |
| HBV 5 Panel Test | AFP | Pregnancy (hCG) |
| Anti-HCV | PSA | Ovulation (LH) |
| Anti-HIV | CEA | Menopause (FSH) |
| Mycobacterium Tuberculosis | | |
